

Printer Endorsements

"We are a pretty good size commercial shop running all types of jobs. We run on a two-color 40", a five-color 29", and four six-color Quickmasters all with coaters. We print matte jobs, labels, bumper stickers, and just about everything else you can think of. Turn time is as critical as it has ever been. My guys have come to love SpeedyDry. We have it on every press in the shop. They trust it. At first, everyone was skeptical of the claims the product makes, but now they believe!"

– Richard Leaman
Production Manager
Linemark Printing
Largo, MD

"We ran solid reflex blue on an uncoated sheet and an hour and a half later varnished it and sent it to cutting. We had a lot of happy sales people and cutter operators."

– Frank Kocialski
President
Colorado Litho
Westminster, CO

"We at Quebecor World MIL Inc. have been using SpeedyDry since August 2004. We use it for matte stocks and heavy solids; we also use SpeedyDry when running offset cover weight stock. As a busy commercial printer, there are certainly times SpeedyDry lets us adhere to our ever changing production schedule. We at Quebecor World MIL have been very pleased with the results SpeedyDry has given us."
